192	First of all I don't know my suggestion will be taken for consideration or not but still a lovable institution and great skilled staffs but the only problem here in Hindustan is that students are not giving their 100% in their studies or even in sports they feel like they got a large amount of freedom to spend in a platform known as college its basically teenager things and can't be changed . Institute should create separate team and appoint students who talk too well and whose way of approach is good to students and make that team to talk to students so that students may get more expert in what they are . I'm not joking but Hindustan there are more hidden talents in ur students start digging out and make them shine like diamonds of HCAS . If my suggestion is considered and you guys are comfortable with the idea i can explain more briefly , always ready to help for Hindustan. Proud HCASIAN ♥️👍.
